## MOTION PICTURES

For loan or purchase information write to the Information Division, Consumer and Marketing Service, U. S. Department of Agriculture, Washington, D. C. 20250.

It happens every noon. Sound, color, 16-mm., 13½ minutes.

... in all schools that take part in the National School Lunch Program—a good, “type-A” lunch. Providing from a third to one-half of the student's daily needs, a nutritious meal helps a child stay alert, even enthusiastic about school, and provides energy that will extend far beyond the lunch period. Yet, almost two-thirds of the millions of school children across the country do not participate in the program. This film is intended to awaken their parents, and communities, to the awareness of the school lunch program and to take action to see that every child takes advantage of it by getting a daily, well-balanced, midday lunch.
